STAT

We regret the delay in responding to your letter of 22 October 1957. The investigation of the claim set forth in your earlier letter required a time-consuming search of old records which now has been completed.

The results indicate that there is no money due you for salary, severance pay or any other purpose.

The record shows that this matter has been the subject of discussion with you over a considerable period of time and that at no time was it demonstrated that you were not compensated fairly for services rendered. Your claim is found to be unjustified and there is no basis for further consideration.

Very truly yours,

Executive Officer
